Application/Control Number: 10/628,011

Art Unit: 1773

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. G. Marlin Knight on April 21, 2005.

The application has been amended as follows:

- Claims 1 18 were cancelled;
- Claim 19, line 2: after "comprising", the following phrase was inserted: "a layer stack on a substrate, said layer stack comprising";
 - Claim 19, line 3: before "first AFC-master", the following phrase was inserted: "first antiferromagnetically coupled magnetic layer structure having a"; and
- Claim 25 was cancelled.

Reasons for Allowance

3. The present claims are deemed allowable over the references of record as exemplified by Sato et al. since the Sato et al. fail to disclose or render obvious the combination of the claimed structural limitations and the relative magnetic anisotropy values for the first and second AFC-master ferromagnetic layers.

Application/Control Number: 10/628,011

Art Unit: 1773

Sato et al. disclose a magnetic recording medium comprising three magnetic layers all antiferromagnetically coupled, wherein the lowest magnetic layer possesses the lowest anisotropy and the upper "recording layer" possesses the highest anisotropy. However, Sato et al. fail to disclose or render obvious a structure comprising four separate magnetic layers, wherein the upper two and the lower two form first and second antiferromagnetically coupled magnetic layers structures, respectively, wherein the magnetic anisotropy of the AFC-master ferromagnetic layer of the upper structure is larger than the magnetic anisotropy of the AFC-master ferromagnetic layer of the lower structure.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M Bernatz whose telephone number is (571) 272-1505. The examiner can normally be reached on M-F, 9:00 AM - 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney can be reached on (571) 272-1284. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
